

SAMPLE COMPANY EMPLOYEE HANDBOOK

Leave Policy

Employees receive 12 days of casual leave per calendar year. Leave requests should normally be submitted at least two working days before the intended leave date. Emergency leave should be communicated to the reporting manager as soon as possible.

Leave Approval

Casual leave requests are submitted to the reporting manager for approval. Employees should not assume that leave is approved until confirmation is received.

Attendance Policy

Employees are expected to maintain at least 75 percent attendance during the working period. Attendance is calculated using the number of days attended divided by the total number of scheduled working days, multiplied by 100.

Working Hours

The standard office working time is 9:30 AM to 6:00 PM, Monday through Friday, with a one-hour lunch break.

Medical Leave

The handbook states that medical leave may require appropriate supporting documentation according to company procedures.

Attendance Compliance

Employees whose attendance falls below the required minimum should contact their reporting manager and follow the applicable company procedure.
